Services

STATUS
In operation

Lima Airport Partners (LAP) is the concessionaire that has operated Jorge Chávez International Airport (AIJC) since 2001. LAP is the first airport concession in Peru, whose investment, contribution, and retribution to the Peruvian state in its first 20 years are more than 3.4 billion dollars. Almar Water Services Latam has been operating since 2014 the wastewater treatment plants at the airport. As strategic partners, we have been able to contribute to fulfilling the environmental commitments assumed by the company with the Peruvian government.
