

CODELCO VP EL TENIENTE I WASTEWATER TREATMENT PLANTS

PLANT TYPE
Wastewater treatment plants

CLIENT
CODELCO

SECTOR
Industrial

COUNTRY
Chile

CAPACITY
13,000 m³/month & 15,500 m³/month

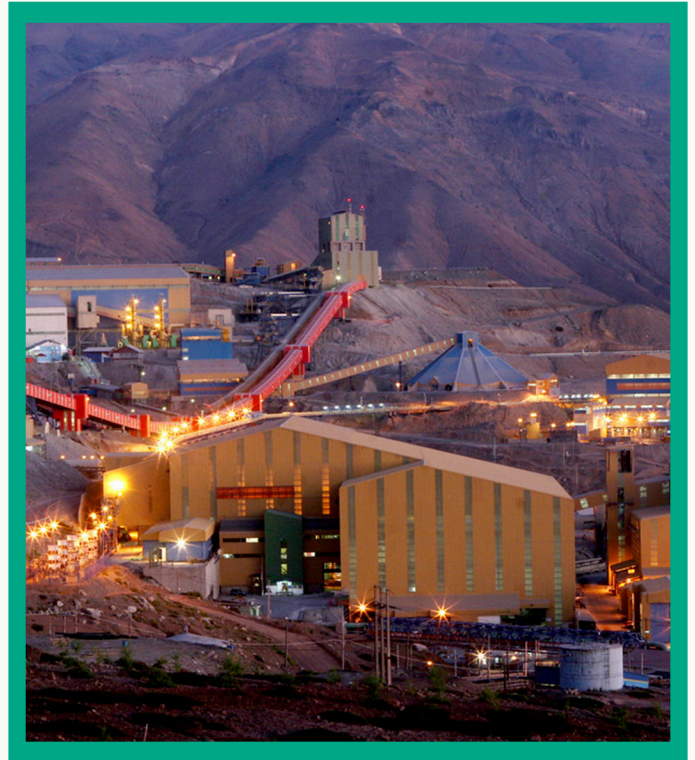

YEAR COMMISSIONED
2007

TYPE OF PROJECT
Services

STATUS
In operation

Almar Water Services Latam performs the operation and maintenance of the water treatment plant that is drained from inside the tunnel of the Codelco El Teniente Division, which allows the recovery of about 12,000 cubic meters of water per month to process copper ore.

In addition, the service performs the operation and maintenance of ventilation systems, pumping systems, water and oil separator plant, and sewage treatment plants. In this way, it provides critical support for the correct development of tunnel construction activities.
