

# ZULUF WATER TREATMENT PLANT

**PLANT TYPE**  
Water treatment plant

**CLIENT**  
ARAMCO

**SECTOR**  
Industrial

**COUNTRY**  
Saudi Arabia

**CAPACITY**  
185,000 m<sup>3</sup>/day

**TECHNOLOGY**  
Degassing and water treatment (clarification, filtration and chemical dosage)

**PARTICIPATION IN THE SPV**  
51%

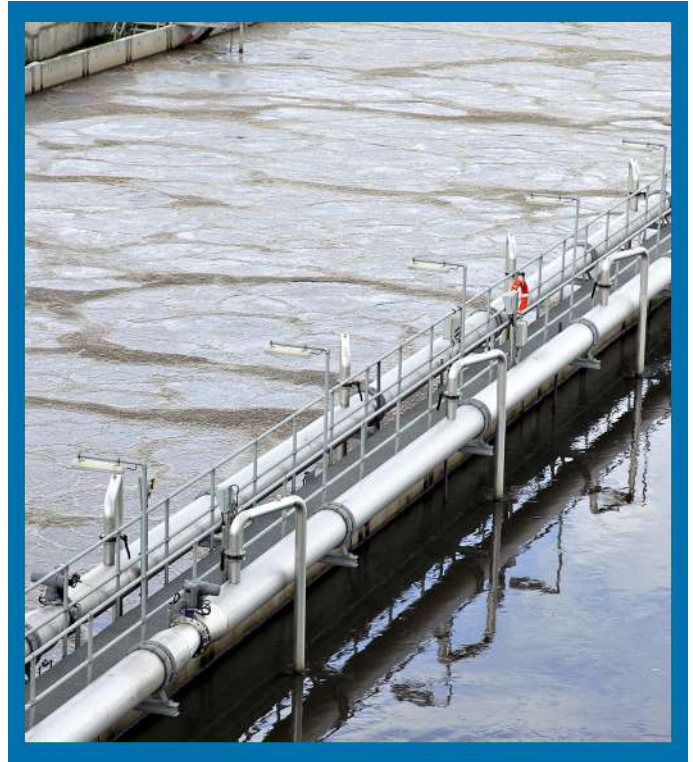

**TYPE OF PROJECT**  
25-year contract under the BOOT scheme

**INVESTMENT**  
US\$ 400 million

**STATUS**  
Under construction

The Zuluf project consists of a water treatment plant with a 185,000 m<sup>3</sup>/day capacity supporting water injection for the Zuluf Onshore Oil Facilities project, located in the Arabian Gulf, 240 km north of Dhahran.

The \$400 million project, which will be developed under a 25-year BOOT (build, own, operate, and transfer) scheme, includes the design, development, financing, construction, commissioning, operation and maintenance, and transfer of ownership.
